## THE TOTAH THEATER BOOKS NATIONALLY RECOGNIZED BANDS FOR AN INCREDIBLE SPRING LINEUP!

Farmington, NM - March 12, 2008 - The Totah Theater, in downtown Farmington, continues to host well-known singers and bands from around the country to the delight of Four Corners' residents. The next few months include performances from National Product and Lorene Drive, and Joseph Kalichstein with the Adams Foundation Piano Concert Series.

Performers often comment on how much they enjoy playing the intimate, 300-seat setting of the Totah Theater auditorium. Fans rave about seeing and hearing such big-name performers in such close quarters. Many of these performing groups only appear at 1000+ seat auditoriums or stadiums. For fans of these groups, the experience of seeing them at the Totah is truly once-in-a-lifetime.

Contact Totah Theater general manager Greg Churchill (505.327.4145) for more information. Schedules and performer profiles are also available at the theater website, [www.thetotah.com](http://www.thetotah.com). Heavily-discounted (often free) tickets are available to media personnel who publish or broadcast announcements/stories about events at the Totah.

## About the Totah Theater

The Totah Theater first opened its doors as a movie theater in the 1940s, and the current owners have transformed the structure into a bustling multi-use performance hall. The activity has provided a much-needed boost of lifeblood to downtown Farmington, New Mexico. The theater hosts concerts, conventions, training sessions, recitals, revivals and more. Big names to appear at the Totah include Michael Martin Murphey, Leon Russell, The Subdudes, Bellamy Brothers, Sleepytime Gorilla Museum, and National Product.
